EDUCATION

Fairleigh Dickinson University – Teaneck, NJ **Expected May 2027**
Bachelor of Science in Computer Science GPA 3.78
Relevant Coursework: Data Structures & Algorithms, Database Systems, Cloud Computing, Linear Algebra
Affiliations: Break Through Tech, FDU Service Desk, WFDU
Awards: Honors list: Fall 23, Spring 24, Fall 24, Spring 25, Fall 25

Certifications

Cornell University, online certification in Machine Learning Foundations **June 2026**
Academy for Information Technology, CompTIA Fundamentals certification **June 2023**

SKILLS

Programming Languages: Python, C++, Java, SQL, Javascript, CSS, HTML, PHP
Libraires/Frameworks: Pandas, Numpy, Scikit-Learn, DirectX, Matplotlib, boto3, Android Studio
Tools & Platforms: GitHub, MySQL, AWS
Language: Spanish (Intermediate)

PROFESSIONAL EXPERIENCE

Fairleigh Dickinson University **Jan 2026 – Present**
Service Desk Intern **Teaneck, NJ**

- Handled calls and service tickets across three FDU campuses regarding issues in the FDU technical ecosystem.
- Used identity management and DUO MFAs systems to handle credentials and unlock accounts.
- Analyze tickets to determine whether they can be resolved at tier one support or escalate to tier two support.

Fairleigh Dickinson University **Sep 2025 – Dec 2025**
Peer Tutor **Teaneck, NJ**

- Facilitated tutoring sessions for CS and Mathematics concepts like Data Structures, Algorithms, and Calculus.
- Designed learning plans using homework and practice problems to help them understand difficult concepts.

NJ Transit **June 2025 – August 2025**
IT FIFA Project Intern **Maplewood, NJ**

- Established critical IT infrastructure across multiple field sites to support operations for the 2026 FIFA World Cup.
- Provided on-site IT support at various NJ field sites for urgent situations that can't be resolved via phone.
- Handle tier 2 tickets by utilizing over-the-phone support, remote desktop tools, and on-site troubleshooting

PROJECTS

Sector Wars | C++, DirectX **May 2026**
Github: https://github.com/EJacomes/Sector-Wars

- Develop core gameplay loop and state function to handle wave transitions, enemy spawning, and player progression
- Implemented dynamic difficulty that boosts enemy fire rate and player upgrade mechanics

Android Studio Term Project | Java, MySQL, Android Studio **Dec 2026**
Github: https://github.com/EJacomes/Android-Studio-term-project

- Developed an Android contact app where users can add, view, update, and delete contact records
- Integrated a MySQL database that stores and retrieves contact data via SQL queries

LEADERSHIP

Break Through Tech Fellow **June 2026 – Present**

- Selected from a pool of 4,300+ for a competitive, technical 12-month AI program with Break Through Tech
- Completing Machine Learning Coursework, Technical projects, mentorship with industry professionals, and professional development workshops on topics including leadership, project management, and career success.

WFDU Radio Host **Sep 2023 – Present**

- Produces a weekly show airing over the tristate area, handling live audio mixing and segment timing
- Collaborates with a co-host to create topics, script segments, and making sure the segments fit within the broadcast
